Explanatory notes

General

You can use this form to request a reduction in your monthly student debt repayment amount. We use your income in 2024 to calculate how much you have to repay each month. Please fill in this form completely and submit it with the correct supporting documents.

Commencement date

This request to reduce the monthly amount applies to the 2026 calendar year. If you apply before the 1st of January, any reduced monthly amount will apply as from the 1st of January 2026. If you submit this form after the 1st of January 2026, any lower monthly amount will apply as from the month following your application.

At 3 Earning capacity assessment

At 3.1

We calculate your monthly amount for 2026 on the basis of your annual income in 2024. You should therefore submit, as a supporting document, an income statement for 2024 from the Tax and Customs Administration. If you did not receive any income in 2024, you should obtain an income statement from the Tax and Customs Administration and submit it to us.

At 3.2

Are you repaying your student debt to DUO in 2026 as well and have you also applied for an earning capacity assessment in relation to the repayment of this student debt? If so, we will take this into account when calculating your monthly amount. The amount you have to pay DUO on the basis of your earning capacity will be deducted from your earning capacity amount in connection with repaying your student debt to RCN Study Financing. We need your Citizen Service Number (bsn) to check whether you are repaying a debt to DUO.
